COMMUNITY REINVESTMENT ACT

Community Reinvestment Act

Under the federal Community Reinvestment Act ("CRA"), The Federal Deposit Insurance Corporation ("FDIC") evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The FDIC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the FDIC and comments received from the public relating to our performance in helping to meet community credit need, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the FDIC publishes a nationwide list of the banks that are scheduled for CRA examination in that quarter. This list is available from the Regional Director, FDIC, Division of Depositor and Consumer Protection, 300 South Riverside Plaza, Suite 1700, Chicago, Illinois 60606. You may send written comments about our performance in helping to meet community credit needs to our Compliance department at 1860 N Mannheim Road, Stone Park, Illinois 60165 and the FDIC Regional Director. You may submit comments electronically through the FDIC's website at www.fdic.gov/regulations/cra. Your letter, together with any response by us, will be considered by the FDIC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the FDIC Regional Director. You may also request from the FDIC Regional Director an announcement of our applications covered by the CRA filed with the FDIC.

We are an affiliate of International Bancorp Inc., a bank holding company. You may request from the Officer in Charge of Supervision, Federal Reserve Bank of Chicago, 230 South LaSalle Street, Chicago, IL 60604, and any announcement of applications covered by the CRA filled by bank holding companies.

CRA Public File

Table of Contents

Content

- 1) All written comments received from the public for current year and each of the prior two calendar years and any responses to the comments by the bank.
- 2) A copy of the public section of the most recent CRA Performance Evaluation.
- 3) A list of the bank's branches, their street addresses and geographies served.
- 4) A list of the branches the bank opened or closed.
- 5) Map of Assessment Area (Cook County Illinois & Orange County New York
- 6) Geographies (Census Tracts) of Cook County and Orange County
- 7) A list of services and service fees generally offered at the bank's branches.
- 8) Bank's loan to deposit ratio for each quarter of the prior calendar year.
- 9) HMDA data, a copy of its HMDA Disclosure Statement.

- 1) All written comments received from the public for current year and each of the prior two calendar years and any responses to the comments by the bank.

No written comments have been received during 2025, 2024

No responses to the comments were required during 2025, 2024

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

The Lending Test is rated Satisfactory.

- The loan-to-deposit ratio is more than reasonable given the institution's size, financial condition, and AAs credit needs.
- A majority of home mortgage and small business loans are in the institution's AAs.
- The geographic distribution of home mortgage and small business loans reflects reasonable dispersion throughout the AAs.
- The distribution of borrowers reflects, given the demographics of the AAs, reasonable penetration among individuals of different income levels (including LMI) and businesses of different sizes.
- The institution did not receive any CRA-related complaints since the prior evaluation; therefore, this factor did not affect the Lending Test rating.

The Community Development Test is rated Satisfactory.

- The institution's community development (CD) performance demonstrates adequate responsiveness to the CD needs in the AAs through CD loans, qualified investments, and CD services, as appropriate considering the institution's capacity and the need and availability of such opportunities for CD in the institution's AAs.

DESCRIPTION OF INSTITUTION

International Bank of Chicago (IBC) is \$982.8 million commercial bank headquartered in Chicago, Illinois that operates within Cook County, Illinois, and Port Jervis (Orange County), New York. IBC is owned by IBC Bancorp Inc., a one-bank holding company based in Chicago. The bank does not have any affiliates. IBC is a certified Community Development Financial Institution (CDFI) and Minority Depository Institution (MDI). The institution received a Satisfactory rating at its previous FDIC CRA examination dated November 14, 2022, conducted using Interagency Intermediate Small Bank (ISB) Examination Procedures.

In addition to the main office, IBC operates five full-service offices. Four are in the Illinois AA and one is in the New York AA. The bank's main office and Stone Park branches are located in low-income census tracts, the Chinatown, Des Plaines and Port Jervis branches are located in moderate-

income census tracts, and the Wilmette branch is located in an upper-income census tract.

No branches have opened or closed since the previous evaluation. No merger or acquisition activities have occurred since the prior examination. In 2023, the bank opened a loan production office (LPO) in the Chinatown neighborhood of Chicago, IL, located approximately one-third of a mile from the bank's Cermak branch. The LPO is utilized to support residential lending efforts.

IBC offers a range of commercial, home mortgage, and consumer loan products, including Small Business Administration (SBA) loans. The bank's primary line of business is commercial real estate and residential lending. IBC continues to offer a variety of deposit services including checking, savings, money market deposit accounts, and certificates of deposit. Alternative banking services include internet and mobile banking, electronic bill pay, and one bank-owned automated teller machine.

In 2022, IBC was awarded \$3.47 million by the CDFI Equitable Recovery Program, a program created by the U.S. Department of Treasury that provides certified CDFIs with funding to assist in expanding lending, grant making, and investment activities in low-to-moderate income communities and to catalyze growth in the financial and organizational capacity of CDFIs for the purpose of carrying out equitable recovery activities.

IBC was also awarded \$437,350 through the CDFI Fund's Bank Enterprise Award Program (BEA), a monetary award to banks that successfully demonstrate an increase in their own lending, investing, or service activities in the most distressed communities. BEA communities are defined as those where at least 30 percent of residents have incomes that are less than the national poverty level and where the unemployment rate is at least 1.5 times the national unemployment rate.

IBC participates in three Federal Home Loan Bank Programs: The Community First Accelerated Grants Program, the Community Small Business Advance Reservation and Credit Program, and the Targeted Impact Fund Grant Program. Through these programs, the bank was able to facilitate one borrower with a loan and four borrowers with grants. IBC continues to participate in the Illinois Housing Development Authority Housing Assistance program; however, they have not had any originations during the evaluation review period.

According to the Call Report dated March 31, 2025, IBC reported \$982.8 million in total assets, \$763.1 million in total loans, \$873.4 million in total deposits, and \$111.9 million in investments. Assets grew 11.4 percent overall since the previous, with an annualized growth rate of 4.2 percent. Loans grew 9.8 percent since the previous examination, with the largest percentage change in Construction and Land Development loans of 2.1 percent. The following table provides detailed information about the bank's loan portfolio.

Loan Portfolio Distribution as of 06/30/2025		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	54,372	7.1
Secured by Farmland	738	0.1
Secured by 1-4 Family Residential Properties	268,930	35.2
Secured by Multifamily (5 or more) Residential Properties	38,055	5.0
Secured by Nonfarm Nonresidential Properties	360,702	47.3
Total Real Estate Loans	722,797	94.7
Commercial and Industrial Loans	39,846	5.2
Agricultural Production and Other Loans to Farmers	0	0.0
Consumer Loans	172	0.0
Obligations of State and Political Subdivisions in the U.S.	0	0.0
Other Loans	293	0.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	763,108	100.0
<i>Source: Reports of Condition and Income</i>		

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more AA within which its CRA performance will be evaluated. IBC has two designated AAs located throughout the states in which it operates, as summarized in the following table.

State	Metropolitan Statistical Area (MSA)/Metropolitan Division (MD)	Counties	Assessment Area Name
Illinois	Chicago-Naperville-Schaumburg, IL MD	Cook	Illinois
New York	Kiryas Joel-Poughkeepsie-Newburgh, NY MSA	Orange	New York

Source: Bank Records

These AAs remain unchanged since the prior evaluation and do not arbitrarily exclude any LMI census tracts, do not reflect illegal discrimination, and otherwise meet the requirements of the CRA regulations.

IBC originated the largest percentage of its home mortgage and small business loans, attracted the largest percentage by dollar volume of deposits (as of June 30, 2024), and operated the largest percentage of branches in the State of Illinois. As such, the State of Illinois received substantially more weight when drawing conclusions.

Assessment Area Name	% of # Loans in Assessment Area	% of Loans by \$ Volume	% of \$ Deposits	% of # Branches
Illinois	95.6	97.7	91.9	83.3
New York	4.4	2.3	8.1	16.7

Source: FDIC June 30, 2024 Deposit Market Share, Bank Records

Examiners did not identify any financial or other legal impediments that hinder the bank's ability to provide credit within its AAs. A more detailed discussion of each of the AAs, including economic and demographic data, competition, and community contacts, can be found in the separate AA sections of this evaluation.

SCOPE OF EVALUATION

General Information

The evaluation covers the period from the previous evaluation dated November 14, 2022, to the current evaluation dated September 15, 2025. Examiners used the Interagency Intermediate Small Institution Examination Procedures to evaluate IBC's CRA performance. These procedures include the Lending Test, and the CD Test as outlined in the appendix.

As described in more detail in the previous section of this evaluation, IBC's Illinois and New York AAs were evaluated and rated using full-scope examination procedures, as IBC only maintains one AA in each state. Consistent with the higher concentration of loans, deposits, and branches in the area, examiners weighed the performance in the Illinois AA more significantly than the New York AA.

Activities Reviewed

Through a review of IBC's business strategy, loan portfolio composition, and number and dollar volume of loan originations during the evaluation period, examiners determined the bank's major product lines are home mortgage loans and small business loans. The bank's record of originating home mortgage and small business loans contributed equal weight to overall conclusions given the bank's strategic focus and loan portfolio distribution. No other loan types, such as small farm or consumer loans, represent a major product line or provide material support for conclusions or the ratings.

This evaluation considers all home mortgage loans reported as originated and purchased on the bank's 2023 and 2024 Home Mortgage Disclosure Act (HMDA) Loan Application Registers. The bank reported 172 home mortgage loans totaling \$50.2 million in 2023 and 108 home mortgage loans totaling \$58.3 million in 2024. IBC's home mortgage lending includes owner occupied, non-owner occupied, one-to-four family residential, and multifamily loans. Therefore, examiners discuss the bank's home mortgage performance by specific loan type. Based on activity levels, owner-occupied 1-4 family products provide greater weight to examiner conclusions. The 2020 U.S. Census data, and HMDA aggregate data in 2023 and 2024 provided a standard of comparison for the bank's home mortgage lending performance. Examiners focused more on the comparison to aggregate HMDA data as it provides a better assessment of demand and represents all loans extended by all lenders in the AA subject to HMDA data reporting requirements.

IBC originated, renewed, or purchased 54 small business loans totaling \$25.5 million in 2024. Examiners reviewed a statistically valid sample of 36 loans totaling \$14.0 million to evaluate the small business lending. Management agreed that this timeframe was representative of lending activities throughout the evaluation period. The 2024 D&B data provided a standard of comparison for the bank's small business performance.

For the Lending Test, examiners reviewed and presented the number and dollar volume of both small business and home mortgage loans. Examiners emphasized performance by the number of loans because number volume is a better indicator of the number of individuals and businesses served, as well as providing a better assessment of lending opportunities. Performance by dollar did not lead to different conclusions.

For the CD Test, examiners reviewed CD loans, qualified investments, and CD services provided by the bank since the prior CRA evaluation dated November 14, 2022.

CONCLUSIONS ON PERFORMANCE CRITERIA

This Performance Evaluation includes a review of the bank's lending and CD performance. IBC is considered an interstate bank, as it has branch locations in the states of Illinois and New York. Therefore, it is subject to the Interstate Banking and Branching Efficiency Act of 1994 (IBBEA). In accordance with IBBEA guidelines, this Public Evaluation includes an overall rating and a state rating for each state.

LENDING TEST

Overall, IBC's performance under the Lending Test reflects reasonable responsiveness to the AAs' credit needs. Geographic Distribution and Borrower Profile performance primarily support this conclusion.

Loan-to-Deposit Ratio

The LTD ratio is more than reasonable given the institution's size, financial condition, and AA credit needs. As shown in the following table, the bank maintained an average LTD ratio of 91.4 percent over the previous eleven quarters, from December 31, 2022, through June 30, 2025. The ratio generally increased to a high of 103.6 in December 31, 2023 and has declined to its current ratio of 85.9 as of June 30, 2025. Examiners evaluated IBC's LTD ratio by comparing it to four similarly-situated institutions (SSIs). Examiners selected these institutions based on asset size, geographic location, and lending focus. The average LTD ratios of these institutions ranged from 74.3 percent to 89.7 percent. IBC's average LTD ratio exceeds all the SSIs and demonstrates more than reasonable performance.

Loan-to-Deposit (LTD) Ratio Comparison		
Bank	Total Assets as of 06/30/2025 (\$000s)	Average Net LTD Ratio (%)
International Bank of Chicago	982,762	91.4
Similarly-Situated Institution #1	1,046,526	74.3
Similarly-Situated Institution #2	829,713	88.9
Similarly-Situated Institution #3	740,375	74.7
Similarly-Situated Institution #4	517,814	89.7
<i>Source: Reports of Condition and Income 12/31/2022 – 06/30/2025</i>		

Assessment Area Concentration

The bank originated a majority of its loans by both number and dollar volume within its AAs. The following table reflects the bank’s home mortgage and small business loans inside and outside the AAs.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000)				Total \$(000)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Home Mortgage										
2023	123	71.5	49	28.5	172	36,515	72.7	13,695	27.3	50,210
2024	77	71.3	31	28.7	108	36,395	62.4	21,935	37.6	58,330
Subtotal	200	71.4	80	28.6	280	72,910	67.2	35,630	32.8	108,540

2024	26	72.2	10	27.8	36	10,342	73.8	3,672	26.2	14,014
Subtotal	26	72.2	10	27.8	36	10,342	73.8	3,672	26.2	14,014
<i>Source: 2023 HMDA), 2024 HMDA; Bank Data, as reported. Due to rounding, totals may not equal 100.0%.</i>										

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AAs. The bank’s reasonable performance of home mortgage and small business lending in the Illinois assessment supports this conclusion. Examiners focused on the percentage by number of loans in LMI census tracts. Please refer to the comments in each AA for detailed discussion of the bank’s performance under this portion of the Lending Test.

Borrower Profile

The distribution of borrowers reflects reasonable penetration among individuals of different incomes and businesses of different sizes within the AAs. The bank’s reasonable performance of home mortgage and small business loans in the Illinois AA primarily supports this conclusion. Please refer to the separate conclusions under each AA for more information supporting the reasonable performance.

Specialized Loan Products

The bank makes use of specialized loan products to address the credit needs of LMI individuals or geographies and small businesses through the following specialized lending products developed by the bank to meet credit needs of the AAs:

IBC continues to offer the Micro Credit Program to consumers and small businesses. For consumers, the bank provides microloans up to \$2,500 targeted to LMI individuals, and \$5,000 for small businesses. All individuals participating in the program must attend four sessions in financial counseling to learn the basic credit system in the U.S., personal financial statement preparation, personal/family budget, and the cash flow and debt service of a credit. The bank originated 87 consumer microloans totaling \$217,500 during the evaluation period. In addition, bank employees have provided 554 hours of financial credit counseling via the program during the evaluation period.

In 2023, IBC introduced a Port Jarvis Small Business Line of Credit loan program for the New York AA. The loan product is a revolving line of credit up to \$10,000 that has a streamlined application and documentation process, with no loan fees. The bank originated two loans totaling \$20,000 under this program during the evaluation period.

Response to Complaints

IBC did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

COMMUNITY DEVELOPMENT TEST

IBC demonstrated adequate responsiveness to the CD needs of its AAs through CD loans, qualified investments, and CD services. Examiners considered the institution's capacity and the need and availability of such opportunities. The bank's CD performance is generally consistent with the performance of SSIs in the AAs that were evaluated under the Interagency Intermediate Small Institution Examination Procedures. Please refer to the comments for each AA for more detailed information regarding IBC's CD activities.

Community Development Loans

IBC originated 56 CD loans totaling \$61.9 million during the evaluation period. This represents 8.2 percent of average net loans over the 11 quarters since the last examination, and an increase by number, but a decrease by dollar amount from the prior evaluation when the bank reported 51 loans totaling \$80.3 million.

IBC's level of CD lending activity is comparable to three SSIs that operate in the bank's AAs and have comparable loan portfolio concentrations and asset sizes. The CD lending activity of the three SSIs ranged from a low of 7.9 percent to a high of 27.2 percent of average net loans. All the SSIs

received satisfactory ratings for CD on their most recent examination. The following table illustrates the bank’s CD lending within the AAs.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Qualified Investments

IBC originated 37 qualified investments and donations totaling \$12.8 million during the evaluation period. This represents 10.9 percent of average securities and 13.4 percent of average capital. This level is an increase from the prior evaluation where IBC reported 30 qualified investments and donations totaling \$10.1 million.

The bank's level of qualified investment activity compares favorably to the three SSIs which had qualified investments to average securities ranging from 0.3 percent to 4.1 percent, and average capital ratios ranging from 0.10 percent to 30.3 percent. The following table provides additional details regarding the bank's qualified investment and donation activities.

Qualified Investments

Community Development Services

Bank employees provided 308 instances of financial expertise or technical assistance to CD-related organizations totaling 1,159 hours during the evaluation period. This level represents an increase from the previous evaluation where the bank provided 165 instances totaling 1,140 hours.

The bank's level of qualified community services activity compares favorably to three SSIs. The SSIs qualified community services ranged from a low of 4 services to a high of 450 services. The following tables provide details on IBC's CD services in the AAs.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and the Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

ILLINOIS ASSESSMENT AREA – Full-Scope Review

CRA RATING FOR ILLINOIS: SATISFACTORY

The Lending Test is rated: Satisfactory

The Community Development Test is rated: Satisfactory

DESCRIPTION OF INSTITUTION’S OPERATIONS IN ILLINOIS

The bank conducts a substantial majority of its operations and lending activities in the Illinois AA. Five of the six full-service offices are located in the Illinois AA. According to FDIC Deposit Market Share data as of June 30, 2024, 91.9 percent of the deposit base is derived from this AA. The full-service offices are located in the City of Chicago (2), the Village of Wilmette, the City of Des Plaines, and the Village of Stone Park. The bank’s main office and Stone Park branch are located in low-income census tracts. The Chinatown and Des Plaines branch are located in a moderate-income census tract, and the Wilmette branch is in an upper-income census tract. The bank’s hours of operation provide reasonable access to banking services.

Economic and Demographic Data

The AA includes all 1,332 census tracts in Cook County. Based on the 2020 U.S. Census Data, the census tracts reflect the following income designations: 225 low-income tracts (17 percent), 351 moderate-income tracts (26 percent), 369 middle-income tracts (28 percent), 371 upper-income tracts (28 percent), and 16 tracts (1 percent) where income data was not available. The following table shows select demographic information about the AA.

Demographic Information of the Assessment Area

		Median Gross Rent		\$1,229		
		Families Below Poverty Level		10.1%		
<i>Source: 2020 Census And 2024 D&B Data (*) The NA category consists of geographies that have Not been assigned an income classification. Due to rounding, totals may not equal 100%.</i>						

Housing units in the AA consist of 51.9 percent owner-occupied, 38.7 percent occupied rental units, and 9.4 percent vacant. Demographic data reveals lower levels of owner-occupied housing units located in LMI census tracts within the AA (30.1 percent). This indicates that area financial institutions will likely face challenges in originating owner-occupied home mortgages in these tracts. Conversely, the AA contains a higher level of rental units (47.3 percent) in LMI census tracts, indicating that there is opportunity to originate non-owner-occupied residential loans in these geographies. The bank's performance under the Geographic Distribution criterion compares home mortgage loans to the percentage of owner-occupied housing units located within geographies by income level and to HMDA aggregate lending.

The median housing value of \$287,457 presents potential challenges to LMI individuals in qualifying for mortgages, as the median family income level is \$92,622. The LMI families account for 27 percent and 17 percent of the families in the AA, respectively, or 44 percent combined, with 10 percent of families below the poverty level. The owner-occupancy demographic coupled with the contrast between median family income levels and median housing values highlight some challenges that home mortgage lenders may face in providing financing to families on the lower end of the income spectrum. The bank's performance under the Borrower Profile criterion compares home mortgage loans to the percentage of families by income level.

Examiners used the 2023 and 2024 FFIEC-updated median family income levels to analyze home mortgage loans in the borrow profile section. The following table illustrates low-, moderate-, middle-, and upper-income categories for the AA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥ 120%
Chicago-Naperville-Evanston, IL MD Median Family Income (16984)				
2023 (\$109,800)	<\$54,900	\$54,900 To <\$87,840	\$87,840 To <\$131,760	≥\$131,760
Chicago-Naperville-Schaumburg, IL MD Median Family Income (16984)				
2024 (\$109,800)	<\$54,900	\$54,900 To <\$87,840	\$87,840 To <\$131,760	≥\$131,760
<i>Source: FFIEC</i>				

The AA maintains a strong commercial base with a high concentration of small businesses. According to 2024 D&B data, 611,846 non-farm businesses operate in the AA, 90.4 percent reported gross annual revenues (GARs) of \$1 million or less. The percentage of non-farm businesses with GARs of less than \$1 million in the AA indicates that opportunities exist to extend loans to small businesses.

Among all non-farm businesses, professional, scientific, and technical services represent the largest portion of businesses at 10 percent; followed by other services (7.6 percent); health care and social assistance (6.1 percent); and administrative and support and waste management (5.7 percent). In addition, 60.6 percent of businesses have four or fewer employees, and 93.2 percent operate from a single location. This highlights the prevalence of very small businesses within the AA. The analysis of small business loans under the geographic distribution criterion compares the loans to the percentage of businesses within geographies by income level, while the analysis under the Borrower Profile criterion compares the loans to the distribution of businesses by GAR level. D&B data for 2024 provides a standard of comparison when measuring small business lending performance.

Data obtained from the U.S. Bureau of Labor Statistics indicates unemployment rates in the AA and statewide improved slightly in 2023 but increased in 2024 and is greater than the national average. The following table outlines the unemployment rates.

Area	2022	2023	2024
	%	%	%
Cook County, Illinois	5.0	4.4	5.4
State of Illinois	4.6	4.5	5.0
National Average	3.6	3.6	4.0
<i>Source: Bureau of Labor Statistics</i>			

Competition

The AA reflects a competitive market for financial services. According to the FDIC Deposit Market Share data as of June 30, 2024, 99 financial institutions operated 1,140 offices in the AA. IBC ranked 33rd maintaining 0.2 percent of the deposit market share. Larger regional and other

community banks offices within the AA hold most of the market share. The top five financial institutions control 68.1 percent of deposits.

A high level of competition in the AA exists for home mortgage loans among several banks, credit unions, and non-depository mortgage lenders. Aggregate Home Mortgage Disclosure Act (HMDA) lending data for 2024, the most recent data available, reflects 88,144 home mortgage originations and purchases by 712 lenders. IBC ranked 135th out of this group of lenders with a market share of 0.08 percent. The top five home mortgage lenders in the area hold a combined market share of 24.3 percent.

Additionally, a relatively competitive environment exists for small business loans in the AA. Aggregate small business lending in 2023, the most recent data available, reflects 219 lenders originated 146,679 small business loans. The top five lenders accounted for 74.4 percent of all reported small business loans, by number. Although IBC is not required to collect or report CRA small business loan data; the data is presented to identify local demand.

Community Contact(s)

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying and understanding the credit and CD needs of the AA, and whether local financial institutions are responsive to those needs. For this evaluation, examiners reviewed recent community contact interviews with representatives from a housing organization and a women's business development and economic empowerment center operating within the bank's AA. One contact identified credit needs for undocumented households, affordable housing for LMI-income families, and for non-profit affordable housing developers to build and operate housing at reduced rents. The second contact identified credit needs for small business loans for service-based businesses with no collateral, and bridge loans to assist small businesses that have contracts to get them through their first invoice.

Credit and Community Development Needs and Opportunities

Considering the information from the community contacts, demographic data, and discussions with bank management, examiners determined that credit and CD needs in the AA include affordable housing and small business lending. In addition, the need for credit access for undocumented households, was also identified by the community contacts as an opportunity for participation by local financial institutions. The high level of LMI families and the percentage of businesses with revenues of \$1 million or less support these needs.

The AA provides numerous opportunities for involvement in CD activities. The Chicago metropolitan area contains empowerment zones and tax increment financing districts designated by local or state government entities for revitalization, stabilization or economic development. These areas are established to stimulate economic activities that include job preservation, job creation, business development, and residential development. Additionally, the State of Illinois and local community organizations sponsor various programs to support affordable housing and economic development.

SCOPE OF EVALUATION - ILLINOIS

Examiners conducted a full scope review of the Illinois AA. The scope of the evaluation of the bank's performance in the State of Illinois is consistent with the overall scope described earlier for the entire institution. Examiners reviewed the 2023 and 2024 home mortgage loans, 2024 small business loans, and applicable CD loans, qualified investments and CD services since the previous evaluation dated November 14, 2022. The AA includes all of Cook County, which is located within the Chicago-Naperville-Schaumburg, IL MD.

CONCLUSIONS ON PERFORMANCE CRITERIA IN ILLINOIS

LENDING TEST

The bank's lending performance reflects reasonable responsiveness to the credit needs in the Illinois AA. Reasonable Geographic Distribution and Borrower Profile performance support this conclusion.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the Illinois AA. This conclusion is supported by excellent performance in home mortgage lending and reasonable performance in small business lending.

Home Mortgage Loans

The geographic distribution of loans reflects excellent dispersion throughout the bank's AA. For this criterion, examiners focused on loans originated in LMI census tracts in the AA.

As previously mentioned, a large percentage of IBC's home mortgage loans are made to real estate investors for financing non-owner occupied 1-4 family and multi-family housing units. Of the total loans originated in 2023 and 2024 within the AA, approximately 68.2 percent were owner-occupied 1-4 family housing loans, 22.4 percent were non-owner occupied 1-4 family loans, and 9.4 percent were multi-family loans. Considering the percentage of originated non-owner occupied 1-4 family and multi-family housing units, examiners analyzed these products separately.

Owner-Occupied 1-4 Home Mortgage Loans

The distribution of owner-occupied home mortgage loans reflects excellent dispersion throughout the AA. Examiner measured performance against aggregate HMDA data and the percentage of owner-occupied housing units (demographic) and focused on lending penetrations in LMI census tracts. The following table reflects the distribution of home mortgage loans by census tract income level.

Geographic Distribution of Owner-Occupied 1-4 Family Home Mortgage Loans						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2023	7.3	7.3	9	10.3	3,144	14.0
2024	7.3	7.2	7	15.9	1,445	13.8

<i>Source: 2020 ACS; Bank Data, 2023 & 2024 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

The bank’s performance in both low-and moderate-income census tracts significantly exceeded both the demographic and aggregate lending data for both years; as such, IBC’s performance is excellent.

Non-Owner-Occupied 1-4 Family Home Mortgage Loans

The geographic distribution of non-owner-occupied home mortgage loans reflects reasonable dispersion throughout the AA. Examiners measured performance against aggregate HMDA data and the percentage of occupied rental housing units (demographic), focusing on lending in LMI census tracts. The following table reflects the distribution of home mortgage loans by census tract income level.

Geographic Distribution of Non-Owner Occupied 1-4 Home Mortgage Loans						
Tract Income Level	% of Occupied Rental Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2023	18.8	18.3	6	28.6	513	13.5

<i>Source: 2020 ACS; Bank Data, 2023 & 2024 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

IBC's performance in low-income census tracts significantly exceeds aggregate data in 2023; however, the bank's lending in low-income census tracts dropped in 2024 and trails aggregate data.

IBC's performance in moderate-income census tracts exceeds aggregate data in 2023 and is approximately in line with aggregate data for 2024. Overall, the bank's performance in LMI tracts is reasonable.

Multi-Family Home Mortgage Loans

The geographic distribution of multi-family home mortgage loans reflects excellent dispersion throughout the AA. Examiners measured performance against aggregate HMDA data and the percentage of multi-family housing units (demographic), focusing on lending penetrations in LMI census tracts. The following table reflects the distribution of home mortgage loans by census tract income level.

Geographic Distribution of Multi-Family Home Mortgage Loans						
Tract Income Level	% of Multifamily Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2023	11.3	20.7	5	50.0	4,420	49.7

<i>Source: 2020 ACS; Bank Data, 2023 & 2024 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

IBC’s performance in low-income census tracts significantly exceeds aggregate data in 2023 by 29.3 percent. However, the bank’s lending in low-income census tracts dropped in 2024 and trails aggregate data.

The bank’s performance in moderate-income census tracts significantly exceeds aggregate data for both years. Overall, 16 of the 18 multifamily loans originated within the AA for the two-year period are in LMI tracts, demonstrating excellent performance.

Small Business Loans

The geographic distribution of small business loans represents reasonable dispersion throughout the AA. Performance is compared to the location of businesses by census tract income level (demographic). The following table reflects the distribution of small business loans by census tract income level.

Geographic Distribution of Small Business Loans					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low					
2024	7.7	4	16.7	1,540	14.9
Moderate					
2024	20.1	3	12.5	1,695	16.4
Middle					
2024	28.9	9	37.5	4,101	39.7
Upper					
2024	42.7	8	33.3	2,986	28.9
NA					
2024	0.7	0	0.0	0	0.0
Total					
2024	100.0	24	100.0	10,322	100.0
<i>Source: 2024 D&B Data; Bank Data. Due to rounding, totals may not equal 100.0%.</i>					

IBC’s performance in low-income census tracts significantly exceeds the comparable demographic. The bank’s percentage of small business loans is more than double the demographic data.

The bank’s performance in moderate-income tracts trails the comparable demographic data by 7.6 percent and is poor. As previously mentioned, the bank has two branches located in low-income census tracts and two branches in moderate-income census tracts within the AA. Although the bank originated a low percentage of the sampled loans in moderate-income tracts, the strong performance in low-income tracts mitigates the poor performance and the overall performance is reasonable.

Borrower Profile

The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among individuals of different income levels (including LMI) and businesses of different sizes. This conclusion is supported by excellent home mortgage and reasonable small business performance.

Home Mortgage Loans

The distribution of borrowers reflects excellent penetration among individuals of different income levels, including LMI borrowers. Home mortgage loans for non-owner-occupied residential properties are typically sought by applicants or business entities where income is not available and, therefore, is not considered in this evaluation. Consequently, examiners assessed the performance under this criterion solely on the distribution of owner-occupied home mortgage loans by borrower income level and measured it against aggregate lending and the percentage of families (demographic data) within the AA. The following table reflects the distribution of owner-occupied home mortgage loans by borrower income level.

Distribution of Owner-Occupied 1-4 Family Home Mortgage Loans by Borrower Income Level						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2023	27.3	9.7	2	2.3	260	1.2
2024	27.3	7.4	6	13.6	773	7.4
Moderate						
2023	16.9	24.3	30	34.5	5,688	25.3
2024	16.9	21.4	18	40.9	4,017	38.4

<i>Source: 2020 ACS; Bank Data, 2023 & 2024 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

IBC's lending to low-income borrowers in 2023 significantly trailed aggregate HMDA lending data; however, performance improved in 2024 and exceeds aggregate HMDA lending data by 6.2 percent.

IBC’s lending to moderate-income borrowers significantly exceeded aggregate HMDA lending data for both years. IBC’s 2023 performance exceeded aggregate lending data by 10.2 percent, and it’s 2024 performance exceeded aggregate lending data by 19.5 percent. Considering the performance to both low-and moderate-income borrowers, overall performance is excellent.

Small Business Loans

The distribution of loans reflects reasonable penetration among businesses of different revenue sizes. Performance is measured against the percentage of businesses with GAR of \$1 million or less (demographic). The following table details the distribution of small business loans by GAR of the businesses in the AA.

Distribution of Small Business Loans by Gross Annual Revenue Category					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
<= \$1,000,000					
2024	90.4	10	41.7	3,636	35.2
> \$1,000,000					
2024	3.3	13	54.2	6,486	62.8
Revenue Not Available					
2024	6.4	1	4.2	200	1.9
Total					
2024	100.0	24	100.0	10,322	100.0

Source: 2024 D&B Data; Bank Data. Due to rounding, totals may not equal 100.0%.

While the bank’s performance significantly trailed the demographic, the demographic represents all businesses in the AA, not only just those seeking traditional bank financing. It is important to note that demographic data does not necessarily represent an accurate picture of demand. Many smaller businesses seek credit through other means such as credit cards, home equity loans, or financing through non-bank sources to fund their businesses. Therefore, examiners also compared IBC’s performance to three SSIs with recent CRA evaluations operating in the AA that have comparable asset size and loan focus. The three SSIs had reasonable performance ranging from 35.9 percent to 60 percent. IBC’s performance exceeded two of the three comparable SSIs. Considering these factors, the loan distribution reflects reasonable performance and willingness to make loans to businesses of different sizes.

IBC continues to offer the Micro Credit Program and originated 55 microloans for \$137,500 in the AA during the evaluation period. As mentioned previously, a community contact noted that credit is needed for undocumented households within the AA. This program is responsive to this credit needs, and further supports IBC willingness to serve the credit needs of the AA.

COMMUNITY DEVELOPMENT TEST

Overall, IBC’s performance demonstrates adequate responsiveness to CD needs in its AA through CD loans, qualified investments, and CD services, considering the institution’s capacity and the need and availability of such opportunities for CD in the institution’s AA. Examiners compared the bank’s CD activities to that of three SSIs operating within the AA and recently evaluated CRA CD performance. The three SSIs were rated Satisfactory under the CD Test.

Community Development Loans

IBC originated 56 CD loans totaling \$61.9 million within the Illinois AA during the review period. This level of activity represents 6.3 percent of average assets and 8.1 percent of average net loans. This activity represents 100 percent of the bank’s total qualified CD lending activity.

As discussed in the overall performance section, examiners compared IBC’s CD lending to the performance of the three SSIs. IBC’s performance was similar to the SSI’s CD lending activities that averaged 16 percent with a range from 7.9 to 27.2 percent of average net loans. IBC’s performance exceeded one of the SSIs. The bank’s level of CD lending within the AA is adequate and demonstrates that the bank has been responsive to the credit needs and opportunities within the AA.

The following table illustrates the bank’s CD lending during the review period.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Examples of IBC’s CD loans include:

- A \$3.2 Million loan for the purchase and development of a retail shopping center in a LMI area that supports revitalization and stabilization efforts.
- A \$400,000 SBA 504 loan to a small business for a restaurant that will provide economic development within the AA.
- Renewal of a \$1.1 million loan for the purchase of a multi-family apartment building with 62 units having affordable rents.

Qualified Investments

IBC made \$8.8 million in qualified investments and donations during the evaluation period in the Illinois AA. Investments during the review period include prior period investments with current outstanding balance of \$6.2 million, \$2.6 million in new investments, and donations totaling \$16,200. The level of investment in the Illinois AA represents 69.2 percent of the bank’s total qualified investment activity by dollar volume. The following table details IBC’s CD investments by year and purpose.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Total	13	8,819	16	16	0	0	0	0	29	8,835

Source: Bank Data

Notable examples of the bank’s qualified investment activities include:

- In 2023, the bank purchased \$1.2 million in mortgage-backed securities that support affordable housing within the AA.
- In 2024, the bank purchased \$1.3 million in mortgage-backed securities for LMI borrowers within the AA.
- Prior to the review period, the bank invested in a qualified mutual fund that earmarks funds for affordable housing in LMI areas in the bank’s AA. The investment has a current balance totaling approximately \$1.8 million as of the evaluation date.

Community Development Services

During the evaluation period, bank employees provided 276 CD services totaling 969 hours which is an increase in the level of services provided at the previous CRA evaluation. The 276 services include providing financial literacy training to 55 borrowers, providing homebuyer counseling to 158 first-time homebuyers, and providing 63 instances of recurring services to six qualified organizations throughout the evaluation period. The following table details the number of services and hours.

Community Development Services										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Total	
	#	Hours	#	Hours	#	Hours	#	Hours	#	Hours
2022*	0	0	1	4	0	0	0	0	1	4

Total	0	0	276	969	0	0	0	0	276	969

Source: Bank Records. (): after previous evaluation dated 11/14/2022.*

- A large portion of the hours are related to the bank’s Micro Credit Program that targeted LMI individuals in the AA. The program includes a series of financial literacy workshops addressing pre-credit financial counseling, credit report analysis, personal financial sessions, personal/family budget analysis, and post-credit follow-up counseling. Bank employees provided 364 hours to 55 borrowers during the evaluation period under this loan program.
- In 2023, the bank formalized a credit counseling and homebuyer education program for first-time homebuyers. Bank employees provided 316 hours of credit and homebuyer counseling to 158 first-time home buyers during the evaluation period.
- A bank employee serves on the Board and Finance Committee of a qualified organization that offers a variety of community services such as afterschool programs, adult education, financial literacy, and employment readiness programs. The organization is targeted to low-income immigrants and refugees within the AA.

The bank also has two locations in low-income census tracts, and two locations in moderate-income census tracts within the AA. This enhances the availability of banking services to LMI individuals residing in and around the tract.

NEW YORK ASSESSMENT AREA - Full Scope Review

CRA RATING FOR NEW YORK: SATISFACTORY

The Lending Test is rated: Satisfactory

The Community Development Test is rated: Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN NEW YORK

IBC continues to maintain one of its six full-service offices in Port Jervis, New York, located in southeastern New York State. The branch is approximately one mile from the border of the state of Pennsylvania and two miles from the border of the state of New Jersey. The Port Jervis branch is located in a moderate-income census tract and borders one low-income census tract and two other moderate-income census tracts. The Port Jervis branch employs a staff of approximately four individuals and does not have personnel to process loans. Port Jervis personnel take loan applications and forward them to IBC's headquarters in Chicago for review. Loan processing, credit underwriting, and loan administration for all Port Jervis loans are centralized in Chicago. The bank's hours of operation provide reasonable access to banking services. According to FDIC Deposit Market Share data as of June 30, 2024, eight percent of IBC's deposit base is derived from this AA.

Economic and Demographic Data

The AA includes all 92 census tracts in Orange County. Based on the 2020 U.S. Census Data, the census tracts reflect the following income designations: 10 low-income tracts (10.9 percent), 17 moderate-income tracts (18.5 percent), 47 middle-income tracts (51.1 percent), and 18 upper-income tracts (19.6 percent). The following table shows select demographic information about the AA.

Demographic Information of the Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	N/A* % of #
Geographies (Census Tracts)	92	10.9	18.5	51.1	19.6	0.0
Population by Geography	401,310	11.5	18.0	50.9	19.6	0.0
Housing Units by Geography	144,264	8.6	19.1	53.3	19.1	0.0
Owner-Occupied Units by Geography	88,453	3.6	14.4	57.9	24.1	0.0
Occupied Rental Units by Geography	41,975	18.2	28.1	43.6	10.1	0.0
Vacant Units by Geography	13,836	10.8	21.7	53.1	14.4	0.0
Businesses by Geography	50,750	13.1	16.1	49.1	21.7	0.0
Farms by Geography	654	1.2	7.2	57.0	34.6	0.0
Family Distribution by Income Level	91,759	22.6	17.4	21.8	38.2	0.0
Household Distribution by Income Level	130,428	26.0	14.7	17.9	41.5	0.0
Median Family Income MSA - 28880 Kiryas Joel-Poughkeepsie-Newburgh, NY MSA	\$100,123	Median Housing Value		\$ 274,765		
		Median Gross Rent		\$1,345		
		Families Below Poverty Level		8.0%		
<i>Source: 2020 Census And 2024 D&B Data (*) The NA category consists of geographies that have Not been assigned an income classification. Due to rounding, totals may not equal 100%.</i>						

Housing units in the AA consist of 61.3 percent owner-occupied, 29.1 percent occupied rental units, and 10 percent vacant. Demographic data reveals lower levels of owner-occupied housing units located in LMI census tracts within the AA (18.0 percent). This indicates that area financial institutions will likely face challenges in originating owner-occupied home mortgages in these tracts. Conversely, the AA contains a higher level of rental units (46.3 percent) in LMI census tracts, indicating that there is opportunity to originate non-owner-occupied residential loans in these geographies. The bank's performance under the Geographic Distribution criterion compares home mortgage loans to the percentage of owner-occupied housing units located within geographies by income level and to HMDA aggregate lending.

The median housing value of \$274,765 presents potential challenges to LMI individuals in qualifying for mortgages, as the median family income level is \$100,123. The LMI families account for 22.6 percent and 17.4 percent of the families in the AA, respectively, or 40.0 percent combined, with 8.0 percent of families below the poverty level. The owner-occupancy demographic coupled with the contrast between median family income levels and median housing values highlight some challenges that home mortgage lenders may face in providing financing to families on the lower end of the income spectrum. The bank's performance under the Borrower Profile criterion compares home mortgage loans to the percentage of families by income level.

Examiners used the 2023 and 2024 FFIEC-updated median family income levels to analyze home mortgage loans in the borrow profile section. The following table illustrates low-, moderate-, middle-, and upper-income categories for the AA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥ 120%
Kiryas Joel-Poughkeepsie-Newburgh, NY MSA Median Family Income (28880)				
2024 (\$114,800)	<\$57,400	\$57,400 To <\$91,840	\$91,840 To <\$137,760	>=\$137,760
Poughkeepsie-Newburgh-Middletown, NY MSA Median Family Income (39100)				
2023 (\$119,600)	<\$59,800	\$59,800 To <\$95,680	\$95,680 To <\$143,520	>=\$143,520
<i>Source: FFIEC</i>				

According to 2024 D&B data, 50,750 non-farm businesses operate in the AA, 91.4 percent reported gross annual revenues (GARs) of \$1 million or less. The percentage of non-farm businesses with GARs of less than \$1 million in the AA indicates that opportunities exist to extend loans to small businesses.

Among all non-farm businesses, professional, scientific, and technical services represent the largest portion of businesses at 9.1 percent; followed by construction (8.1 percent); and retail trade (7.6 percent). In addition, 62.5 percent of businesses have four or fewer employees, and 94.6 percent operate from a single location. This highlights the prevalence of very small businesses within the AA. The analysis of small business loans under the geographic distribution criterion compares the loans to the percentage of businesses within geographies by income level, while the analysis under the Borrower Profile criterion compares the loans to the distribution of businesses by GAR level. D&B data for 2024 provides a standard of comparison when measuring small business lending performance.

Data obtained from the U.S. Bureau of Labor Statistics indicates unemployment rates in the AA and statewide remained relatively stable throughout the evaluation period. The following table outlines the unemployment rates.

Area	2022	2023	2024
	%	%	%
Orange County, New York	3.4	3.5	3.7
State of New York	4.3	4.0	4.3
National Average	3.6	3.6	4.0
<i>Source: Bureau of Labor Statistics</i>			

Competition

The AA reflects a moderately competitive market for financial services. According to the FDIC Deposit Market Share data as of June 30, 2024, 23 financial institutions operated 90 offices in the AA. IBC ranked 19th, maintaining 0.7 percent of the deposit market share. Larger regional and other community banks offices within the AA hold most of the market share. The top five financial institutions control 61.4 percent of deposits.

A high level of competition in the AA exists for home mortgage loans among several banks, credit unions, and non-depository mortgage lenders. Aggregate HMDA lending data for 2024, the most recent data available, reflects 7,614 home mortgage originations and purchases by 244 lenders. IBC ranked 142nd out of this group of lenders with a market share of 0.04 percent. The top five home mortgage lenders in the area hold a combined market share of 33.6 percent.

Additionally, a relatively competitive environment exists for small business loans in the AA. Aggregate small business lending in 2023, the most recent data available, reflects 104 lenders originated 14,078 small business loans. Although IBC is not required to collect or report CRA small business loan data; the data is presented to identify local demand.

Community Contact(s)

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying and understanding the credit and CD needs of the AA, and whether local financial institutions are responsive to those needs. For this evaluation, examiners reviewed a recent community contact interview with representatives from a small business development corporation operating within the bank's AA. The contact identified credit needs for affordable housing and small dollar loans (\$200,000 or less) for small businesses.

Credit and Community Development Needs and Opportunities

Considering the information from the community contact, demographic data, and discussions with bank management, examiners determined that affordable housing and small business lending represent primary credit needs in the AA. The high level of LMI families and the percentage of businesses with revenues of \$1 million or less support these needs.

SCOPE OF EVALUATION – NEW YORK

Examiners conducted a full scope review of the New York AA. The scope of the evaluation of the bank's performance in the State of New York is consistent with the overall scope described earlier for the entire institution. Examiners reviewed the 2023 and 2024 home mortgage loans, 2024 small business loans, and applicable CD loans, qualified investments and CD services since the previous evaluation dated November 14, 2022. The small business sample in 2024 included the universe of small business loans originated and renewed in the New York AA. The New York AA includes all of Orange County, which is located within the Kiryas Joel-Poughkeepsie-Newburgh, NY MSA.

CONCLUSIONS ON PERFORMANCE CRITERIA IN NEW YORK

LENDING TEST

IBC demonstrated overall reasonable performance under the Lending Test in the New York AA. During the review period, the bank funded eight home mortgage loans totaling approximately \$1.9 million and two small business loans totaling \$20,000 in the AA. This accounts for 4.4 percent of total

home mortgage and small business lending in its markets by number, which is lower than the level of deposit (8 percent) in the AA.

Geographic Distribution

Overall, the geographic distribution of loans reflects reasonable dispersion throughout the AA. The conclusion is supported by reasonable performance in home mortgage lending and small business lending.

Home Mortgage Loans

The geographic distribution of loans reflects reasonable dispersion throughout the New York AA. Performance is measured against aggregate data and the percentage of owner-occupied housing units (demographic) within each census tract level. The following table reflects the distribution of small business loans by census tract income level.

Geographic Distribution of Home Mortgage Loans						
Tract Income Level	% of Owner Occupied Housing Units	HMDA Aggregate % of #	#	%	\$(000s)	%
Low						
2023	3.6	6.9	0	0.0	0	0.0
2024	3.6	10.3	0	0.0	0	0.0
Moderate						
2023	14.4	15.0	2	40.0	290	28.3

Source: 2020 Census; Bank Data, as reported); 2023, 2024 HMDA Aggregate Data. Due to rounding, totals may not equal 100.0%.

No residential loans were originated in low-income census tracts for either year. However, opportunities are limited with only 3.6 percent of owner-occupied units in low-income tracts. Further, IBC’s home mortgage product offerings are limited, and the bank faces a high level of

competition within the AA. These factors demonstrate the difficulties the bank faces in originating loans in low-income tracts.

The bank’s performance in moderate-income tracts significantly exceeded the aggregate data for both years. The strong performance in moderate tracts mitigates the lack of lending in low-income tracts and is reasonable overall.

Small Business Loans

The geographic distribution of small business loans represents reasonable dispersion throughout the AA. Performance is compared to the location of businesses by census tract income level (demographic). The following table reflects the distribution of small business loans by census tract income level.

Geographic Distribution of Small Business Loans					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low					
2024	13.1	0	0.0	0	0.0

<i>Source: 2024 D&B Data; Bank Data. Due to rounding, totals may not equal 100.0%.</i>					

While the bank made no loans in low-income census tracts, all the loans originated were in moderate-income census tracts, resulting in an overall reasonable performance.

Borrower Profile

Overall, the distribution of home mortgage and small business loans reflects reasonable penetration. The distribution of borrowers reflects poor penetration among individuals of different income levels for residential loans, while it reflects reasonable penetration among businesses of different sizes.

Home Mortgage Loans

The distribution of borrowers reflects poor penetration among individuals of different income levels, including LMI borrowers. The following table demonstrates the distribution of home mortgage loans by borrower income level.

Distribution of Home Mortgage Loans by Borrower Income Level						
Borrower Income Level	% of Families	HMDA Aggregate % of #	#	%	\$(000s)	%
Low

Source: 2020 Census; Bank Data, as reported; 2023, 2024 Public HMDA Aggregate Data Due to rounding, totals may not equal 100.0%.

The bank’s lending to low-income borrowers exceeded aggregate data in 2023, however the bank did not originate any loans to low-income borrowers in 2024.

The bank’s lending to moderate-income borrowers was in line with aggregate data in 2023, however no loans were originated in 2024 to moderate-income borrowers. Based on the absence of lending to LMI borrowers in 2024, the bank’s performance is poor.

Small Business Loans

The distribution of loans reflects reasonable penetration among businesses of different revenue sizes. Performance is measured against the percentage of businesses with GAR of \$1 million or less (demographic). The following table details the distribution of small business loans by GAR of the businesses in the AA.

Distribution of Small Business Loans by Gross Annual Revenue Category					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
<= \$1,000,000					
2024	91.4	1	50.0	10	50.0
> \$1,000,000					
2024	2.2	0	0.0	0	0.0
Revenue Not Available					
2024	6.4	1	50.0	10	50.0
Total					
2024	100.0	2	100.0	20	100.0
<i>Source: 2024 D&B Data; Bank Data. Due to rounding, totals may not equal 100.0%.</i>					

Although the bank’s performance trails the percentage of businesses with GAR of \$1 million or less, relevant performance context factors mitigate this performance. Both small business loans originated in 2024 were Port Jervis Small Business Lines of credit, a new loan program that was introduced in 2023 and benefits small businesses through its streamlined application process, limited underwriting, and no loan fees. As previously mentioned, a recent community contact noted that small dollar loans for small businesses is a credit need in the AA. This loan program is responsive to this credit need and further demonstrates the bank’s willingness to make loans to small businesses.

IBC continues to offer the Micro Credit Program and originated 32 microloans to LMI borrowers for \$80,000 in the AA during the evaluation period. The bank’s Micro Credit Program further supports its willingness to serve the credit needs of the AA.

COMMUNITY DEVELOPMENT TEST

IBC demonstrated an adequate responsiveness to the CD needs of the New York AA through CD loans, qualified investments, and CD services. Examiners considered the bank’s capacity and the need and availability of such opportunities within the AA.

Community Development Loans

The bank did not originate any CD loans in the AA during the evaluation period.

Qualified Investments

IBC made eight qualified investments totaling \$3.9 million during the evaluation period in the New York AA. This level is an increase from the prior evaluation where IBC reported 4 qualified investments totaling \$1.9 million in this AA. Investments during the review period include prior period investments with current outstanding balance of \$2.0 million, and \$1.9 million in new

investments. The following table provides information regarding the number and volume of CD investments.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Source: Bank Data

Notable examples of the bank’s CD investments include:

- In 2023, the bank purchased a \$500,000 investment in a qualified mutual fund that earmarks funds for affordable housing in LMI areas in the bank’s AA.
- In 2024, the bank purchased \$1.2 million in mortgage-backed securities for LMI borrowers within the AA.

Community Development Services

The bank provided 32 CD services totaling 190 hours during the evaluation period. The services involved providing financial literacy workshops to 32 borrowers under the bank’s microloan program. As previously noted, the program extends unsecured credit to qualified individuals within the AA, and includes several workshops covering pre-credit financial counseling, credit report analysis, personal financial analysis, personal/family budget analysis, and post-credit follow-up counseling. The following table illustrates information on the number of services and hours provided in the AA.

Community Development Services										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Total

Source: Bank Records. (): after previous evaluation dated 11/14/2022.*

The bank's sole branch office in New York is located in a moderate-income census tract, which enhances the availability of banking services to LMI individuals residing in and around the tract.

APPENDICES

INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

Community Development Test

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

SUMMARY OF RATINGS FOR RATED AREAS

Rated Area	Lending Test	Community Development Test	Rating
ILLINOIS AA	Satisfactory	Satisfactory	Satisfactory
NEW YORK AA	Satisfactory	Satisfactory	Satisfactory

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited-scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Trust Service

IBC Trust service is a division of International Bank of Chicago. We have streamline services for administration, custodian and loan services on self-directed IRAs, especially on Real Estate IRAs. As your IRA custodian, our truly self-directed IRA services gives you complete control and flexibility since IRS does not allow you to personally administer your self-directed IRA account.

Online Banking

IBC offers customers online banking platform.

Mobile Banking

IBC offers customers mobile app, INBK Mobile to manage their finances.

Mobile Check Deposit

IBC customers can deposit checks right from their phone through INBK Mobile app.

Safe Deposit Boxes

Offered at Broadway and Des Plaines Branches.

Merchant Remote Deposit Capture

It allows customers to deposit a check at their desk tops with desk top scanner which connects to the PC and the internet to turn checks into digital deposits.

International Bank of Chicago
